

# BALTIMORE HOSPITAL.

6th July, 1812.

The Board of Visitors of the BALTIMORE HOSPITAL, have the satisfaction to inform the Public, that the Institution is now in excellent order for the reception of such Patients, as may be admitted to its care. The INFIRMARY or that part of the House intended for the use of the sick generally, is so far completed, as to accommodate in the most comfortable manner upwards of one hundred Patients; and the centre building, which contains a large number of spacious apartments, calculated particularly for private Patients, is in a state of forwardness, and will be soon finished.

The ASYLUM erected for Lunatics is completely finished, and is certainly not surpassed by any in the United States, either for comfort or convenience. The rooms intended for Deranged Persons are large and well ventilated, and constructed in such a manner, as to be cool and pleasant in summer, and to be made perfectly warm and agreeable during the cold weather.

The Visitors have also the pleasure to state, that Mr and Mrs. Gatecl, the steward and matron of the Hospital, have during their residence in the Institution, afforded them repeated opportunities of witnessing their care and attention to the Patients, and from their long experience in the Pennsylvania Hospital, and the high recommendations they have brought with them, every reliance may be placed on their exertions to give satisfaction.

A suitable number of Nurses have been provided to attend on the sick; and the Institution is furnished with every comfort necessary for the Patients, or which may be ordered for them by the attending Physicians.

The situation of the Hospital is high and healthy, the water excellent, and the prospect handsome. Around it is a spacious yard shaded by forest and other trees, now enclosing with a brick wall; and attached to it, a large Garden abounding with vegetables of every kind.

The following gentlemen have charge of the Medical and Surgical departments of the Institution.
